Sicomin Clear Systems

Sicomin is a leading global formulator and supplier of technically superior, high strength epoxy resins and advanced composite materials.

Sicomin's range of new generation, lightweight, clear resin systems are designed for the manufacture of laminates that require the clear finish and protection of traditional varnishes, without the weight.

They are suited to all materials including Carbon, Glass and Aramid and are compatible with all polystyrene, polyurethane, cross-linked and linear PVC foams.

Sicomin's clear coating range provides a high mechanical performance with superior UV stability. A brilliant clear, yet tough, finish is achieved that not only enhances the look but also protects the required surface from moisture.

Fast hardening and self leveling coatings are available and can be applied with brush or spray.

Ideally suited to clear carbon, wooden and composite components.

Features and Benefits

- New generation, lightweight clear resin systems
- Suitable for all materials including Carbon, Glass and Aramid Laminates
- High mechanical performance and superior UV stability
- Brilliant high gloss finish for clear carbon, wood and composite components
- Use TOP CLEAR for fast hardening and easy coating. It offers the ultimate UV protection to Sicomin clear epoxy laminating
- Compatible with polystyrene, polyurethane, cross-linked and linear PVC foams
- Brush or spray versions available

TOP PRODUCTS

TOP CLEAR

New generation coating formulation for clear carbon and other varnished components

Translucent, high gloss & permanent 'Wet Look'

UV stable, very fast hardening, self leveling

Brush or spray versions available

Ideal for clear carbon look, artwork and a high quality surface finish

Suitable for all materials including Carbon, Glass, Aramids, Wood and all commercial Foams.

GLASS CLEAR

Dedicated laminating epoxy system for the Surf industry.

Provides a high shiny effect on white surf foam.

SURF CLEAR / GLASS ONE

Classic worldwide renowned epoxies for the Surf industry.

Provides the highest UV resistance count of all the Sicomin clear resins.

High gloss appearance for transparent laminates, clear carbon parts and decorative goods.

Self levelling, sandable and scratch resistant.

GREEN CLEAR

Clear laminating and coating systems.

Based on Sicomin Greenepoxy made with more than 50% green carbon content.

The next resin generation...

Sicomín boasts one of the largest product portfolio's of technically superior epoxy systems on the market today, as well as high performance advanced composite materials.
